FROM PRINCIPAL'S DESK

Every new academic year ushers in fresh set of hopefuls and ambitious young scholars desirous of pursuing their cherished dreams through our college environment. We have always looked forward to it and will continue to do so. As a principal, I heartily welcome everyone coming to be a part of this noble seat of knowledge as a learner. I also acknowledge my thankfulness to parents and guardians of the learners for selecting this college for the entry of their sons and daughters to mould their future life. At the same time, I assure the best of service that an educational institute can provide.

At present, education is undergoing a sea change. That's why Expert Academy believes in the philosophy 'to educate is the empower'. The mission statement of the college- 'Read to lead' is truly emblematic of this philosophy. Empowerment however requires more than academic excellence. In today's competitive and demanding world, our students must also excel in sports and extra-curricular activities. This is the reason that cultural gatherings, sports, tournaments, publication of bulletins, exhibitions and seminars and so on all find their way into the academic calendar of our college. Stress is also laid on character building which we regard as our social obligation we also fulfill our social obligation through different other activities like holding peace rallies after different barbaric terror attacks and playing special attention to the students coming from economically backward classes. We believe all these above small but wholehearted steps will equip our students with the necessary knowledge and soft skills to go that extra mile.

Our college may not have a long history but during this short span we have been able to prove that Expert Academy certainly has a tryst with excellence. We strive for excellence by ensuring a trinity of superlatives – students, faculty and infrastructure, cohabit in congenial and conducive environment. Since its inception, the college has remained committed to creative archiving and dissemination of knowledge in various streams for the service to humanity. Our system ensures that the quality of education is constantly monitored and that standards are not just reviewed and maintained but also improved with each passing day.

Direct message to the students

Dear Students,

College life plays a significant role in shaping one's career and therefore has to be used meaningfully and creatively. You should make the best use of college life so as to achieve the highest in academics, personality development and caring social life. This will not only elevate the college, but will also contribute in creating a just and participatory social and economic environment. This requires hard work and co-operative efforts at all levels; only then can we make a difference. The relatively younger group has a major responsibility as there are no shortcuts to success and challenges emerging from competitive world are tough.

I eagerly look forward to seeing you in the campus. I am sure your passes through the portals of this college will enable you to realize your cherished dreams.

With best wishes.

(MRIDUL KALITA)
Principal (Honorary)

History and Introduction

Although Guwahati boasts of numerous Educational Institutes yet it is a fact that the capital city still lacks an ideal Junior College. Expert Academy is a sincere attempt to fulfill

that void. The academy was established in 2010 with an aim to make it a renowned centre of excellence that can cater to the growing need of higher education. Today, after completing ten years, we can proudly declare that we are at the doorstep of our aim. Our performance in the Higher Secondary final year itself speaks about the truthfulness of our claim. Our untiring efforts have made this possible.
